

Measure for dealing with the Corona Virus

Employees and tasks:

- Remember to have an ongoing dialogue with the staff about infection risk in relation to the individual's family situation
- Work if necessary with staggered working hours, possibly direct work shift (day- or week- shift)
- Employees who show any symptoms of illness do not attend work
- Plan the work tasks so that close contact is completely avoided

Lunch and meetings:

- Avoid or introduce new routines for morning meetings in a safe distance between people. Eg. meetings can be held outdoors at a safe distance between people
- Introduce rules for max. number of staff at the same time inside the machine hall
- Avoid all physical contact
- Eat lunch separately and preferably outside

Use of machines and tools:

- The machine's steering wheel and touch surfaces must be disinfected before and after use. - The same machine should be run by the same person
- Avoid borrowing equipment / machines from other golf courses (If you borrow, clean / disinfect)
- All hand tools must be disinfected before and after use
- Wear gloves and use a new set per day. Use nitrile gloves when using alcohol for disinfection

In general

- Remember to wash your hands several times daily, both after a toilet visit, before entering the lunchroom and after touching surfaces.
- Toilet and sink should be disinfected after use - every time
- When using the lunch table, remember to disinfect after use
- Clarify who is responsible for the cleaning of changing rooms, toilets, etc.
- Use hand rubbing alcohol if you can get it
